### Puppy Information

Puppy Name _____
Date of Birth _____ Male _____ Female _____
Microchip # _____
Sire Name: _____
Dam Name: _____

- Limited Registration**, never to be used for breeding purposes and to be spayed/neutered at the appropriate age.
- Full AKC Registration**, the puppy seems to be of breeding quality at the time of purchase. The breeder does not guarantee that the puppy purchased will be successful in a breeding program.

Breeder agrees to transfer all rights, privileges and responsibilities associated with the ownership of the puppy to the purchaser after 10 weeks of age when purchase price has been paid.

Breeder agrees to provide the purchaser with AKC Registration application, CKC Registration application, vaccination/de-worming record, and the veterinarian health report of the puppy.

The puppy will be examined by a licensed veterinarian prior to being transferred to the purchaser. As of the date of the transfer, the puppy will have received appropriate vaccination and de-worming.

### **Health Guarantee**

Purchaser is required to have the above puppy examined by a licensed veterinarian of purchaser's choice within 72 hours of transfer of the puppy at the purchaser's expense and provide the breeder with a copy of the veterinarian health report or the health guarantee portion of this contract will be void.

In the event of any genetic disorder within the puppy's first 12 months of life which is sufficiently serious in the opinion of at least two qualified, licensed veterinarians (one of whom will be selected by the breeder) to deem the puppy unsuitable as a companion pet or to warrant euthanasia of the puppy, the breeder agrees to:

- Replace the puppy with one of equivalent purchase price within 18 months
- OR
- Refund the original purchase price, minus the shipping and vet cost.

In either of these cases the puppy must be relinquished to the breeder. Return shipping, veterinary, and testing expenses associated with the replacement of the puppy are the responsibility of the purchaser.

Purchaser must, in any of these cases, willingly and openly provide documentation of the tests performed, supporting veterinary reports, and veterinarian contact information to the breeder. Purchaser understands that allowing the puppy to become overweight, over vaccinated, and failure to provide the puppy with adequate diet, exercise, proper veterinary care, and protection from hazards to the health and development of the puppy will deem the health guarantee portion of this contract void.

Purchaser agrees to maintain the puppy in a humane environment with shelter, a healthy diet, fresh water, exercise, human interaction, properly train and care for the puppy, and provide proper and necessary veterinary care. Breeder encourages purchaser to provide appropriate opportunities for socialization with children, other dogs, and strangers once core vaccination series is complete.

If at any point in the puppy's life the buyer is no longer able to care for the puppy, the puppy must be returned to the breeder or properly rehomed. Breeder is not required to compensate purchaser for the puppy's expenses or purchase price when the puppy is returned.

Purchaser understands the conditions contained in this document as well as breed-relevant information regarding feeding, exercise, grooming, vaccinations, traits and potential health conditions associated with the breed.
